My Flight Instructor Philosophy:

I have been a pilot for over 30 years and a Flight Instructor for over five years. Aviation safety demands that good pilots attain a high level of skill and professionalism. I have a passion for flying. I view my mission as a Flight Instructor to develop within each of my students the same passion for flying, attaining the highest skill levels, and becoming professional.

I am demanding but, I am very patient and friendly and continually work with my students in developing their skills to become excellent pilots.
