## About Me :

I am originally from Japan and grew up there most of my life. I started flying in the U.S.A since 2006. Before I came to the U.S.A I was the one who had just been dreaming for flying as long as I can remember since childhood as a lot of you guys are right now. Although I have a passion for flying, safety is my first priority and I am a very patient person. I understand the fact that finding a good flight instructor is the key for your goal. From that standpoint I know how to make a good relationship with my student. Also I'm specialized in giving instructions to student English as second language. That's what I have been doing throughout most of my teaching career. I know how hard it is to learn how to fly in this kind of environment especially for international student. I can definitely promise you to attain your aviation goal. Hope to see you soon up in the sky. STOP DREAMING START FLYING!
